Our linear range, consisting of an aluminium profile and LED strip light, is expertly designed to provide a long-lasting and high-quality lighting solution. The output and color rendering remain consistent over time, and the highlighting effect does not decay.
You can choose from 2700K or 4000K color temperature options, and 5m or 10m lengths.
Additionally, we offer two IP ratings: IP20 or IP66.
We can customise our linear range to meet your specific needs and bring your vision to life.

Product Category: *Linear*

Input Voltage	DC 24V Constant Voltage	**PCB Width**	8mm
Power Per Metre	9.6W	**Beam Angle**	120°
Lumen Watts	81Lm	**IP Rating**	20 / 66
Lumen Per Metre	2700K - 850Lm / 4000K - 950Lm	**Colour Temperature**	2700K / 4000K
CRI	>90	**Version**	240 LEDS per metre
Cut Length	25mm	**Length**	5m / 10m
